

Schneider Electric announces higher power rating for our connected Conext™ SmartGen

Grenoble, 2018 June 15 – Schneider Electric, the global leader in digital transformation of energy management and automation today announces the launch of the Conext™ SmartGen CS2400 inverter, extending the available power ratings for the product line.

- **Optimized for large utility scale power plants**
- **Rating up to 2400kVA**
- **Digital and IoT ready: ability to control everything at your fingertips**

The Conext™ CS2400 is now available for both North America and IEC markets and is offered as part of a 4.8 MVA turnkey station using two inverters.

“The new Conext™ SmartGen CS2400 is optimized for large utility scale projects,” says Evan Vogel, Vice President of Marketing, Schneider Electric Solar. *“We offer SmartGen inverters with power ratings from 1666 kVA to 2400 kVA. The wide range of available power ratings makes SmartGen suitable for all large projects, providing customers the flexibility to meet power plant capacity limits while optimizing output.”*

The Conext™ SmartGen is compatible with the full ranges of control and monitoring apps and services to provide end to end solutions with high quality energy for your Power Plant.

“This new rating expands the portfolio of solutions for utility scale solar, and is aligned with our continuing commitment to this critical market segment,” says Vogel. Since 2000, over 10 gigawatt (GW) of power was connected to the grid with Schneider Electric utility-scale inverters.

To learn more about the Conext™ SmartGen, visit Schneider Electric Solar Event at Nemetschek located near Messe München from June 20th to 21st, 2018.

About Schneider Electric

Schneider Electric is leading the Digital Transformation of Energy Management and Automation in Homes, Buildings, Data Centers, Infrastructure and Industries.

With global presence in over 100 countries, Schneider is the undisputable leader in Power Management – Medium Voltage, Low Voltage and Secure Power, and in Automation Systems. We provide integrated efficiency solutions, combining energy, automation and software.

In our global Ecosystem, we collaborate with the largest Partner, Integrator and Developer Community on our Open Platform to deliver real-time control and operational efficiency.

We believe that great people and partners make Schneider a great company and that our commitment to Innovation, Diversity and Sustainability ensures that Life Is On everywhere, for everyone and at every moment.
