In the event You purchased the Product directly from Schneider Electric Solar, this warranty period commences ninety (90) days after the Product is shipped

from Schneider Electric Solar. The warranty period expires on the same date either (a) five (5) years later or (b) if You properly registered Your Product as specified above, ten (10) years later, unless otherwise agreed in writing (the "Warranty Period"). If Your Product becomes defective and You notify Schneider Electric Solar of such defect within the Warranty Period, Schneider Electric Solar will, at its sole discretion, either (i) repair the defective Product or (ii) replace with new, reconditioned parts or similar parts of equivalent depreciated value, provided that Schneider Electric Solar through inspection establishes the existence of such a defect which is covered by this Contractual Warranty. If Schneider Electric Solar elects to perform any onsite warranty services, Schneider Electric Solar requires a site escort (arranged and paid for by You) for all such warranty services. Accordingly, if Schneider Electric Solar elects to perform such on-site warranty servicing, You will need to provide Schneider Electric Solar with the relevant contact information for Your site escort for scheduling purposes. Alternatively, Schneider Electric Solar may elect, at its sole discretion, to provide You with cash compensation equal to the Product's value depreciated by the number of years of operation under the Warranty Period.
